

## Project Summary

Miracle League of Findlay is proud to provide accessible recreation opportunities for people with disabilities in Hancock County. Currently the Miracle League of Findlay provides Miracle Field, a custom baseball field with a rubberized surface and wheelchair and walker accessible dugouts, that allows players with disabilities the opportunity to experience the game of baseball. In addition, the Miracle League also provides the community with an inclusive playground next to the baseball field that is designed to welcome children of all abilities and their families. It provides individuals who are physically, mentally or emotionally challenged the chance to enjoy a playground with sensory-stimulating activities, an extensive ramping system and many more accessible features.

### Fitness Park

The proposed capital project, Miracle League's Fitness Park, aims to utilize green space around Miracle Field to create a fitness-focused, accessible trail complete with workout stations (and instructions) that promotes health and wellness for people of all ages and abilities. The new Fitness Park will stand out as the sole destination in the region offering inclusive and accessible fitness equipment for individuals with differing abilities to safely partake in physical fitness activities. Physical, mental and emotional fitness can be a life-changing experience for individuals with disabilities.

Proposed  
Accessible Trail  
& Fitness Pods

**The new Fitness Park not only encourages regular exercise but also fosters community engagement by providing a space where individuals can come together to pursue a healthy lifestyle.**

## BUDGET \$450,000
